WISCONSIN
Home Insurance Office,
No. 8 Kneeland's Block.
MILWAUKEE, WISCONSIN, MARCH 30, 1855
INSURANCE ... DWELLINGS HOUSES, ... and other Buildings, Household Furniture, Merchandise and other property, against
LOSS OR DAMAGE BY FIRE.

This is a new Company organized ... 20 ... last, on the Mutual plan, ... the privilege by the charter of doing business on the Cash plan upon either Fire or Marine risks, but to the present time the business has been confined to the Mutual system of Insurance, and the very favorable and flattering manner in which the same has been received by the ... public has induced the Directors to make it a purely Mutual Company. Besides this, it is believed that the recent failures of many of the Eastern Companies has been owing mainly ... combination of the Cash and Mutual system in one Company.

This Company commenced business with a capital of $50,000 and have already issued upwards of 3... policies; and it is believed that, with proper caution as to the selection of risks, and great economy in expenses, we shall soon be enabled to make this Company such a one as will generally be preferred.

The recent failures of several of the old Stock Companies, among the most prominent of which are the ... and Columbus, although it is believed that their business was conducted in the most proper manner, has had a tendency to shake the confidence of many of the most reliable and prominent insurers ... in the stock plan of insurance, and have induced them to bring ... the only safe and reliable companies are those conducted on the Mutual principle.

As it is the design of the Directors to do a profitable, rather than a large and therefore doubtful business, the company will take none except ... risks, and at such rates as are deemed fully adequate to the risk. Agents are also instructed not to exceed $2000 upon any one risk in Villages without ... which of course will present very great loss at one fire.

Highly Important to Farmers.
The only Exclusive Farmers' Insurance Company in the West.

THE MADISON MUTUAL,
Located at Madison, Wisconsin.

THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c, from one to five years, at lower rates than most other responsible Companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses and your own of the same class, and all will be on an equal footing.

Experience has shown that two thirds if not three-fourths of all the fires that occur are upon stores, taverns, mills shops, and such like property. In this Company all such property is rejected. ... ALONE.

Farmers, look to your own interest, and insure in a Farmers Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the Company.

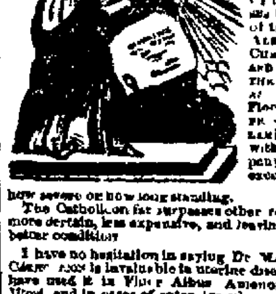
DR. J. B. MARCHISI'S
CELEBRATED CATHOLICON,
For the Relief and Cure of Suffering Females.



IT STANDS PREeminent for its curative powers in all the diseases for which it is recommended usually called

Female Complaints

Of these are Prolapsus Uteri, or Falling of the Womb; Fluor Albus, or Whites; Chronic Inflammation and Ulceration of the Womb; Incidental Hemorrhage, or Flooding, Painful, Suppressed and Irregular Menstruation, &c, with all their accompanying evils, (Cancer excepted,) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in better condition.

I have no hesitation in saying Dr. Marchisi's Uterine Catholicon is invaluable in uterine diseases generally. I have used it in Fluor Albus Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty.
JOHN C ORRICK, M. D.,
Baltimore, Md

The Catholicon is doing good service here ... all the patients that have tried the medicine have been benefitted but one—and that one nothing will help.
Truly Yours,
WM LAIRD HAZLETT, M. D.,
July 6th, 1854 New Philadelphia, Ohio

I must say, from my own experience and personal observations in my practice, it has proved to be the best remedy for the difficulties for which it is recommended, that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregularities of the menstruation, and diseases of irritation of the female organs.
D. Y FOOTE M. D.,
Syracuse, N Y

Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

INSURANCE OFFICES

WISCONSIN
Home Insurance Office,
No. 5 Kneeland's Block.
MILWAUKEE, WISCONSIN, MARCH 20, 1855

INSURANCE MADE TO DWELLINGS, HOUSES, and other Buildings, Merchandise, Furniture, Merchandise and other property, against

LOSS OR DAMAGE BY FIRE.

This is a new Company organized the 20 h of January last, on the Mutual plan, with the privilege by the charter of doing business on the Cash plan upon either Fire or Marine risks, but to the present time the business has been confined to the Mutual system of Insurance, and the very favorable and flattering manner in which the same has been received by the ... has induced the Directors to make it a partial Mutual Company. Because it is believed that the recent failures of many of the Eastern Companies has been owing mainly to the combination of the Cash and Mutual system in one Company.

This Company, commenced business with a capital of $50,000 and have a ready issued upwards of 5 k policies; and it is believed that, with proper caution as to the selection of risks, and a rigid economy in expenses, we shall soon be enabled to make this Company such a one as will generally be preferred.

The recent failures of several of the old Stock Companies, among the most prominent of which are the Protection and Columbus, although it is believed that their business was conducted in the most proper manner, has had a tendency to shake the confidence of many of the most reliable and prominent insurance men in the Stock plan of insurance, and have induced them to believe that the only sure and reliable Companies are those conducted on the Mutual principle.

As it is the design of the Directors to do a profitable, rather than a large and therefore doubtful business, the company will take none except at such rates as are deemed fully adequate to the risk. Agents are also instructed not to take to exceed $1000 upon any one risk in Villages within a circle of ... rods diameter, which of course will prevent very great loss at one fire.

Applications for Insurance, respectfully solicited. Agents wanted for the above Company.

Highly Important to Farmers.

The only Exclusive Farmers' Insurance Company in the West.

THE MADISON MUTUAL,
Located at Madison, Wisconsin.

THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible Companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by this means, their property being less hazardous than any other, consequently you will have no losses and your own of the same class, and all will be on an equal footing.

Experience has shown that two thirds if not three-fourths of all the fires that occur are upon stores, taverns, mills shops, and such like property. In this Company all such property is rejected. Farmers ... look to your own interest, and insure in a Farmers Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the Company.

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2600 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

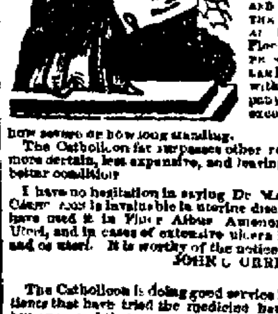
DR. J. B. MARCHISI'S
CELEBRATED CATHOLICON,
For the Relief and Cure of Suffering Females.



IT STANDS PRE-eminent for its curative powers in all the diseases for which it is recommended, usually called

Female Complaints.

Of these are Prolapsus Uteri or Falling of the Womb; Fluor Albus or Whites; Chronic Inflammation and Ulceration of the Womb; Incidental Hemorrhage or Flooding, Painful ... and Irregular Menstruation, &c. with all their accompanying evils, (Cancer excepted) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in better condition.

I have no hesitation in saying Dr. Marchisi's Uterine Catholicon is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty. JOHN C ORRICK, M. D., Baltimore, Md

The Catholicon is doing good service here in all the patients that have tried the medicine have been benefited but one--and that one nothing will help.

Truly Yours,
WM LAIRD HAZLETT, M. D.
July 6th, 1854 New Philadelphia, Ohio

I must say, from my own experience and personal observations in my practice, it has proven to be the best and safest remedy for the difficulties for which it is recommended, viz: that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregularities and painful menstruation, and diseases of irritation of the female organs.

D. Y. FOOTE, M. D., Syracuse, N Y

Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

LIFE OF WM H SEWARD with selections from his writings ... Redfield N Y publisher

We are indebted to Wilson, bookseller, for a copy of this welcome volume, well arranged by the compiler, neatly printed by Redfield, and placing within the reach of all, a brief biography and selections from the speeches and writings of one who stands foremost among the statesmen of the day We adopt as our own, and heartily endorse the following language of the Chicago Journal in reference to this book, and its distinguished subject

"Faithful biographies of such men as William H Seward, are always welcome—always valuable To write them, is to have a noble theme, to print them is a beneficial use of the great engine of the age

The subject of the biography is one of the noblest living exemplifications of a constellation of truths An industry that knows no weariness—a purpose as honorable as it is enduring—a fidelity that is never diminished—a truth that is never questioned—these are among the marked characteristics of a public life, already extended through a period of twenty five years

Calm and assured in the justice of the position he assumes deeply hopeful in the ultimate triumph of the right the whole manner of the man is in marked and beautiful contrast with the phemeral flutter of the mere politicians, that an hour or two of warm air in the changing mood of administration and party may call into life and activity The spirit that has pervaded the more recent of his public efforts is one almost prophetic He seems to look beyond the night that will close upon the passing day on into to-morrow, and his decisions are made with a regard to the ultimate and the future, that no clamor of the Present is able to disturb

* * * * * *

We think no one can rise from the perusal of his speeches upon momentous questions, without the sentiment of deep respect for the speaker, and an impression that a world of latent strength is hidden beneath that calm deliberate manner and those simple but well selected words—an impression too that the glorious types of the noble statesman are not yet quite extinct—that among them may be numbered, William H Seward—lightly fall the snow of half a century upon his brow

The book before us is full of interest furnishing, as it does, a chapter or two for the unwritten history of the men and the times that are now passing so rapidly away, and a worthy example for the study, the love and the imitation of the coming man."

MICHIGAN WHEAT CROP—Mr Bates, one of the editors of the Michigan Farmer informs the reporter of the Enquirer in relation to the wheat crop in Southern Michigan, that the present indications are favorable—quite so The freezings and thawings that the plant endured after the snow left the ground, pretty much destroyed the leaf, and created some alarm—but the few warm days ... have revived the crop so much that there ... little grounds for fearing a failure of no ... casualties occur The backwardness of ... season may be reckoned a favorable circumstance rather than dangerous to the vitality of the wheat crop, or to the fruit crop either.

LUMBER AT SAGINAW—The Saginaw Spirit of the Times says, that parties owning the pine logs banked on Tittabawassee river, during the past winter are about to construct a boom on the west bank of the Saginaw, from the Mackinaw street ferry to Green Point a distance of about two miles Within the coming thirty days it will need so twenty five million feet of logs

DEMAND FOR WHEAT—Such is the scarcity of wheat that the city millers are sending agents south and west to secure supplies The arrivals during the week have been mainly to the millers direct, who have bought up all the desirable lots at the southern markets yet their supplies will not last a month Wheat appears to be relatively higher than flour The absence of a supply of wheat with all the southern millers is a very unusual state of things—Many millers in the interior of Maryland have their mills idle—N Y Evening Post

Buying Cattle in Michigan.

We have never told although often times urged thereto of our adventure with Mitchell's money in Michigan, last fall, while buying oxen for lumbering And there ' we don't believe that half of our readers are aware that we are a live editorial lumberman But of that, some other time It was to the rural and innocent population of Rome Centre near Adrian that we appeared in company with our friend H——, in the character of drovers, at the time mentioned with both pockets full of money, for the purchase of working oxen At that time Indiana money was at the very worst—Illinois and most other States but except Wisconsin which went through the most stormy times as we all know, with flying colors To make all things sure, we had stopped on our way last, at our friend Mitchell's "institution in Milwaukee, and made up our "pile," for the most part, to his money and so fortified went our way, snapping our fingers at money panics and breaking banks

But Mitchell's fame as a reliable banker, tho' it may have extended throughout the West, had not penetrated the heart of Lenawee county, in the State of Michigan, and the good people there knew him not The newspaper—the Adrian Watch Tower, or some thing of that sort—advised its readers to refuse all Western money except Michigan the only store keeper at Rome Centre advised our friends the owners of the cattle, not to take it, and it was by long and tedious argument and exposition of the plan of Wisconsin banking, that at last they chiefly took it in to the owners fingers, and parted with the oxen

We were about ready to come home, had been down at Adrian on some business and driving back up to the tavern step at the "Centre" found a large crowd in the street, with our friend H—— in the midst and all very much excited "Here he comes!" exclaimed some of them, moving towards us in an almost menacing manner "Yes, here he comes," said H——, whose appearance denoted some little excitement also, "here he comes and he'll straighten it out for you" There was evidently a row in prospect and in looking around for reinforcements, we couldn't see all the world see one friend beside H—— The tavern-keeper was a pretty clever fellow but probably had run for office some time or other and learned better than to go against the crowd Besides, he was getting ready to give a balloon ascension, and showmen want the good will of the people So there was no hope from him, or any one else but H——, and like a "forlorn hope" we awaited the breaking of the storm "And so," said the ringleader, whom we recognized as having sold us a fine pair of cattle the day before, "after all your fine stories about this money, the bank is closed"

"My dear sir," we remarked, with tremendous dignity "we tell no fine stories, the bank is not closed"

"That would do to tell yesterday, but it won't to day," said he, this money is bad The bank is closed, Thompson's Detector says it is You are trying to cheat us out of our cattle It won't do sir, you can't come it, no sir-ee!"

For a moment things did look badly. The only explanation which suggested itself to us on the instant, was that THOMPSON, in one of his freaks had undertaken to put down the Wisconsin Marine and Fire Insurance Co Bank and unseriously announced it as closed. We suggested this matter to the excited crowd and entered upon an elaborate panegyric of our friend MITCHELL whom we represented as probably the most honest man out of Scotland, and the least likely of all the bankers on the American Continent to burst up—for all of which we charge him nothing, our object being not so much to give him popularity, as to make his money current, until we could with our cattle, get out of Lenawee county, Michigan

But all that did not avail, and, much perplexed, we accompanied the crowd to the store where the ill-fated Detector was to be seen—reflecting mean while upon what it all could possibly mean It suddenly struck us that the old "institution," which existed prior to our new banking law, had "closed" and the new one, under the same name, ... so, had commenced business. The difficulty was solved at once but we didn't mention it to the crowd, preferring to put them to confusion in the best possible style, so we marched in to the "one-horse" store at the head of the cattle sellers, and called for the Detector There it was, as plain as daylight

It ... probability, a more foolish looking set of fellows was never seen in these parts, when we showed the last clause to them, and asked, seriously, if they knew how to read. The Nunnery Investigation.

The Roxbury affair, not over clean at first, is growing decidedly dirty, and appears to possess with in itself an extraordinary fecundity of nastiness If things go on at this rate, decent newspapers must stop the discussion The Lowell scandal intrudes itself as a piece of quite superfluous indecorum but it has been brought so directly before the House, that investigation cannot be avoided What will come next is known only to Bacchus and Venus But while the tendency of these disclosures is to divert the public attention from the original sins of the Committee we must continue to remind our readers of the individual rights which were violated, of the initial wrongs which aroused this tempest of indignation We have had our joke at Mr Joseph Hiss, and he is just now the best kicked and cuffed man in Massachusetts, but we have not, meanwhile, been unmindful of the other gentlemen who played minor parts in this blackguard burlesque We have not forgotten the indelicacy with which a crowd of inquisitive quidnuncs were invited to participate in the raid against a religious house We have not forgotten the Paul Pry impudence with which the delegation popped in the coarse self introduction, the surveillance of sinks and cellars, the tobacco scented gab which were wafted into the nostrils of a sick girl We have not forgotten the feast which followed, the wine bought by law makers, and quaffed by law breakers the delicacies devoured with a relish which no landlord's long bill disturbed We have not forgotten that when these things were first brought to light the organ of the Commonwealth met them with a point blank denial and averred that the committee men in every word and in every action, were uncommonly polite! We have not forgotten the wrath of Senator Dawley, the calls of Senator Carpenter for committee

Then the Advertiser was the bear and the Legislature the dog Pursuer and pursued have changed positions, and now the dog is a "leetle ahead" We have not forgotten these things—the public will not forget them The two-thirds of the year, with infinite gravity hopes that this subject will occupy the public mind more than another week" Upon this point it may possess its soul in peace The freshness of the caricatures will not be lost in a twelvemonth, and the jokes will have a long day of it Those who are laughed at and those who are sneered at are terribly dull of comprehension and fancy that they are ill used, We pity them, and in pity will vouchsafe an emollient explanation They wish to make a scape goat of Mr Joseph Hiss—they are themselves the scape-goats of the Legislature They have been brought to the door of the tabernacle, and upon their backs have been laid the weaknesses and the waywardness the follies and the blunders of the Great and General Court The train was already laid their unlucky hands fired it, and an explosion of laughter followed—The Roxbury visitation furnished a culminating point, beyond which gravity was impossible

After the ridicule let us hope for reflection—When the Know Nothing movement commenced in Massachusetts we opposed it in no bitterness of spirit but with a thorough consciousness of its hollowness and insincerity. When the hour of its great success came, we were startled but not disheartened The victory, magnificent as it was cost too much—it cost the truth the self-respect, the personal honor of the victors Men who had mounted the anti-alien hobby, rode bravely upon that stalking horse into the State House and the Capitol They fancied that success was all in all—this was first to be achieved, and virtue afterwards, if practicable Such men are always the cunning artificers of their own ruin. When no common principle unites the leaders of a party, creating a feeling at once of honor and friendship politics sink into a voracious scramble for office, and disunion speedily follows dissension Hardly a moiety of the eighty thousand men who voted the Native American ticket, heartily accepted the Native American principles It is not surprising, therefore, that our Legislature is composed of heterogeneous materials, unfused and infusible It is not strange that we find it appointing foolish committees and sending them upon tom-fool's errands. It is not strange that some members are weak, some bigoted, some malicious, and some heartily sick of the whole affair. There might have been salvation in the shortest and silentest of sessions—but nothing can now prevent a counter revolution in Massachusetts, quite as extraordinary as that of last November.—[Boston Atlas.

The Judicial Election.

We refer our readers to the figures on this subject contained in another column They tell the story and nothing we could say, would add to their expressive eloquence We are sure they will prove satisfactory to a very large majority of our readers—indeed, we think satisfactory is hardly a sufficiently expressive term We doubt whether the result of any heretofore election, carried such real joy to the hearts of all true lovers of the rights of man and the well-being and interests of humanity as this

The reason of this is evident It was felt to be a crisis—a point wherein was to be determined whether the State was to go forward in the glorious career upon which she had recently entered or to hesitate, falter, and eventually recede Thank God, the public pulse beats firm and true and strong Nor is it a doubtful or uncertain vote or majority We think it will be found to be as full a vote as has ever been cast in the State, and the majority is such as to leave no room for dispute or cavil as to the public sentiment

Nor can it be doubted, that it was the issues which grew out of the action of our Supreme Court which determined the question. Crawford and Cole were well matched in all respects, and we are not aware during the whole canvass that personal attacks were made upon the candidates on either side The advantages, so far as there were any, were all in favor of Crawford Yet he is borne down defeated,—and it cannot be denied or doubted—it is because the people were determined there should not be room even for a remote suspicion that they did not fully sanction the position of Smith and Whiton

The battle on this question is fought and decided. The last appeal has been taken The fugitive law in this State is dead And its upholders and abettors—those who sustain it indirectly and skulkingly as well as those who sustain it openly —are politically dead with it.

No State in the Union occupies at this moment so high and proud a position as Wisconsin, Her citizens have done well—they have reason to rejoice —[Kenosha Telegraph

Important from Paraguay.

The bark Argentine has arrived at Salem,with Buenos Ayres dates to Feb 13 A letter received by a firm in this city says

"The U S. steam-vessel Water Witch has been fired into by the Paraguayans and forced to retreat As there is no American vessel of war in these waters, you must wait awhile before the matter can be looked into "

The Buenos Ayres Packet, of Feb 10, received by the same vessel, contains the particulars of the occurrence After the troubles between the government of Paraguay and U S Consul Hopkins, the former forbade any vessels of war from ascending the Parana river

The captain of the Water Witch, Capt Page, considered his vessel as merely a surveying vessel as it has been engaged for over a year past in surveying the Parana river Capt Page, on the 31st of January sailed from Corrientes to explore the Rio Salado, leaving orders with Lieut Jeffers to proceed up the Water Witch up the Parana In going up he went on shore near a battery, the garrison of which prepared the guns for action, and Lieut Jeffers having refused to receive a paper from on shore which he could not read, it being Spanish the following occurrence took place as described by a writer in the Packet

"At 1,20 the Water Witch was under way and the pilot then was directed to steer so as to pass through the main channel, which passed on the Paraguay side of the island When nearly opposite the battery, a semi circular brick or redstone fort mounting about six guns and at a distance of three hundred yards, she was hailed, which hail was neither understood nor responded to, this was shortly followed by two blank cartridges, and then by a shot which cut the wheel-ropes, disabling the steering wheel, and mortally wounding the man at the helm Lieut Jeffers then gave orders to fire in return, still continuing his course up the river

"The pilot, as soon as the firing began, ran below and was with difficulty got on deck again, and then, on looking around, exclaimed that it was impossible to pass on as there was not sufficient water in the channel, the vessel being then in ten feet water By this time she had passed all the fire of the battery, except one gun, and a return was compelled to repass it The channel being too narrow to turn in, the Water Witch was backed down stern foremost, exposed to a severe fire, which she continued to return until beyond its reach "

It is worthy of remark, that no flag was displayed at the battery, so that, in reality, the nation of the enemy can only be conjectured

N. Y. Legislative Resolutions.

The Joint Resolutions proposed by Mr. Robertson in the Senate, in regard to Slavery and Secret Political Societies, and adopted by that body, passed the Assembly last night by an average vote of ten to one

Their tone is just and dispassionate, as befits the dignity of the State that utters them But they reiterate in the most decided and emphatic terms the determination of New York to maintain, so far as lies in her power, Freedom of Speech and Freedom of Soil

While recognizing every obligation imposed by the Constitution for the return of fugitives from service, they demand the Repeal of an unjust Law for which the Constitution gives no warrant

While disavowing all intent or right to interfere with the institution of Slavery in States where it exists, they denounce the attempt to thrust it into new territory once pledged to Freedom Released by that act from all obligations of Compromise, they demand that Kansas and Nebraska, when they come into the Union, shall come into it FREE

In conclusion, they reiterate the solemn warnings of Washington's last address against secret combinations and associations to check freedom of discussion and open, untrammelled and independent political action —[Albany (N Y) Eve Journal.

FIRE —One night last week, the steam mill of Mr George May of Fort Atkinson, was discovered to be on fire The alarm was given and the citizens were collected together in time to save the building with but slight damage It is located immediately on the margin of Rock River, and as there happened at the time, to be no wind it was comparatively an easy task to extinguish the flames We understand that the belief is very general in that village, that this was the work of an incendiary The fire was discovered on the roof, and nearly or quite all the damage sustained, was to that part of the building Those present discovered the trail of shavings which apparently had been carried from a work shop connected with the mill to a location directly under the spot where the fire was first discovered It appears that these shavings had been placed upon the plate on the south side of the building and there set on fire, and thus the flames were communicated to the roof Pieces of burnt shavings were found below appearing to have fallen from this position Certain parties are strongly suspected but we are not advised that sufficient proofs have been discovered to warrant an investigation —[Jeffersonian

RAFTS.—For several days past the river at this place has been filled from shore to shore, and for considerable distance above the bridge with pine logs, which have found their way into it from the Northern Pinery, and the raftsmen have been putting them in shape to pass the chute in the dam below On Tuesday, all things being ready, the somewhat exciting operation of running them down commenced There was also above the boom quite a number of rafts of tamarack piles, which were to go down the river Our citizens who are fond of sport gathered about the chute to witness the performance, and seemed to think it paid quite as well as the majority of amusement Some of the rafts were not sufficiently strong to pass the descent in the form in which they approach it but broke in pieces, not unfrequently leaving the men who were on them upon a single log, and that rolling and tumbling in the current in such a manner as to induce us to believe that a person, to run logs with safety needed to be something of a circusman, if not more —[Jefferson ...

THE FUGITIVE CASE IN NEW YORK —The slave girl who escaped from Richmond in the steamer Jamestown, and came to this city, was not recovered by the captain, and he had to go back without her. The penalties for carrying off a slave from Virginia are very severe—a fine of two thousand dollars and imprisonment for five years. When he arrived in Richmond he found that the girl's owner had not yet become aware of her escape The captain related all the facts to the owner, and she let him off on paying $1,250 All the facts of the case are given at length in another column, as derived from the officers of the steamer.—[N. NAVIGATION —The season of navigation was inaugurated on Saturday last by the arrival of one steamboat and the departure of two. Early in the morning a shrill whistle was heard above the upper town, and those who were curious enough to go to the edge of the bluff to see whence the sound proceeded—and their name was legion—beheld the little MONTELLO, Captain Russell,puffing down stream from the Minnesota, as bold as a bantam. Captain Russell reports that the ice was not out of the Minnesota at Fort Ridgely, on the 3d inst, and although it was his intention to go to the Agency, from his winter quarters at Henderson, yet he concluded it best to turn toward St. Paul. He is the first arrival of the season, and we greet his advent most cordially, in common with the hundreds who gave him a warm welcome as he rounded to the upper landing.—[St. Paul Pioneer, 9th

Female Complaints Effectually Cured by Holloway's Pills —Mrs. Mary Pearson, of Mark st., Missouri, aged 45, about two years ago was thrown on a bed of sickness for several weeks Her arms and legs became much swollen, and it appeared to the medical men whom she consulted, at this period of life, that she was dropsical—She gradually grew worse, until all hope of her being cured was abandoned by her husband and friends At this crisis Mr Pearson persuaded her to have recourse to Holloway's Pills, and by persevering with them for six weeks she was perfectly well. They are an excellent medicine for young females with obstructions in their health entering into womanhood,

RELIABLE EVIDENCE.

BLOOMFIELD, MO , January 15, 1855

Messrs A G BRAGG & Co,

DEAR SIRS, Allow me to add my testimony to the excellent properties of your Mustang Liniment, in all cases of burns or scalds I had a son badly burned on his face and hands by powder It was expected that he would be badly scarred for life We applied the Mustang Liniment ... and no blistering else, and ... not a scar, or mark whatever My wife used it in a case of scald from boiling hot tallow and it had the same good effect

Yours, truly, D B MILLER, County Judge

RUSSELL COUNTY, ALA , Feb 1, 1853

For the benefit of the afflicted, I feel it my duty to state publicly the remarkable cure that have been effected in my family by the use of the Mustang Liniment One of my negroes had what is called a Bone Felon, or Whitlow on her finger This Inflammation had been so extensive that the whole finger had become a mass of corruption, and the only hope of saving her hand and perhaps her life appeared to be to have it cut off As her general health was very delicate, the Physician advised us to try the Mustang Liniment a few days, till she could be sent to a surgeon in Columbus as it could do no harm and might prevent mortification To the astonishment of the doctor and myself, the pain soon ceased, the inflammation subsided, and the wound rapidly healed The finger is perfectly well and sound One of my boys was severely burned, the skin was entirely taken off from the knee to the ankle The Mustang Liniment was freely applied, and no thing else was used The relief and cure were almost beyond belief, but a short time elapsed before the wounds were perfectly healed I consider it an invaluable remedy, and it should be in every family and on every plantation JAMES PHILIPS

NOTHING NEW—BUT EVER TRUE —It would be nothing new to say that the Mustang Liniment had been used more in the United States than any other preparation But it would be true to say that it has been more uniformly successful in healing wounds, bruises burns, cuts, and all manner of sores, as well as piles, erysipelas, pains or lameness in the back, side or limbs, rheumatism than any other remedy These are facts that millions of persons know from having used it We say millions, and base the assertion on the fact that over fifteen millions of bottles have been used, and never heard a complaint against it, where it has been used as directed and used thoroughly We deem it necessary occasionally to remind the people of these facts to induce those to try it who may never have had an occasion to use it One trial is all we ask the most incredulous—and such a trial will only cost 25 cents

PRICES —It is put up in bottles of all sizes, and retails at 25 cents 50 cents, and $1 per bottle The fifty cent and one dollar bottles contain three times as much as the twenty five cent size in proportion to their cost The large bottles are the cheapest

LIFE OF WM H SEWARD with selections from his works ... Redfield N Y pub...

We are indebted to Wilson, bookseller, for a copy of this welcome volume, well arranged by the compiler, neatly printed by Redfield, and placing within the reach of all, a brief biography and selections from the speeches and writings of one who stands foremost among the statesmen of the day. We adopt as our own, and heartily endorse the following language of the Chicago Journal in reference to this book, and its distinguished subject:

"Faithful biographies of such men as William H Seward, are always welcome—always valuable. To write them, is to have a noble theme, to print them is a beneficial use of the great engine of the age.

The subject of the biography is one of the noblest living exemplifications of a constellation of truths. An industry that knows no weariness—a purpose as honorable as it is enduring—a fidelity that is never diminished—a truth that is never questioned—these are among the marked characteristics of a public life, already extended through a period of twenty-five years.

Calm and assured in the justice of the position he assumes deeply hopeful in the ultimate triumph of the right, the whole manner of the man is in marked and beautiful contrast with the ephemeral flutter of the mere politicians, that an hour or two of warm sun in the changing mood of administration and party, may call into life and activity. The spirit that has pervaded the utterances of his public efforts is one almost prophetic. He seems to look beyond the night that will close in upon the passing day, on into to-morrow and his decisions are made with a regard to the ultimate and the future, that no clamor of the Present is able to disturb.

* * * * *

We think no one can rise from the perusal of his speeches upon momentous questions, without the sentiment of deep respect for the speaker, and an impression that a world of latent strength is hidden beneath that calm deliberate manner and those simple but well selected words—an impression too that the glorious types of the noble statesman are not yet quite extinct—that among them may be numbered, William H Seward—lightly fall the snow of half a century upon his brow.

The book before us is full of interest furnishing, as it does, a chapter or two for the unwritten history of the men and the times that are now passing so rapidly away, and a worthy example for the study, the love and the imitation of the coming man."

MICHIGAN WHEAT CROP.—Mr Betts, one of the editors of the Michigan Farmer informs the reporter of the Enquirer in relation to the wheat crop in Southern Michigan, that the present indications are favorable—up to so... The freezings ... that the plant ended after the snow left the ground, pretty much destroyed the leaf, and crowded some ... —but the few warm days ... revived the crop so much that there ... be little grounds for fearing a failure if no future casualties occur. The backwardness of the season may be reckoned a favorable circumstance rather than dangerous to the vitality of the wheat crop, or to the fruit crop either.

BARNUM OUTDONE—BABY SHOW ON THE SOUTHERN RAILROAD.—The Adrian Watchtower is responsible for the statement that on the evening of the 11th inst the train on the Southern Railroad consisted of 23 cars 21 of which contained 504 paying passengers, and twenty five babies to each car, or in the aggregate 525 babies—all Westward bound!

LUMBER AT SAGINAW.—The Saginaw Spirit of the Times says, that parties owning the pine logs banked on the Tittabawassee river, during the past winter are about to construct a boom on the west bank of the Saginaw, from the Mackinaw street ferry to Green Point a distance of about two miles. Within the coming thirty days it will hold twenty five million feet of logs.

Also that a company owning three mills on the Saginaw river have contracted for all the lumber manufactured during the coming season, estimated at eight million feet, (more or less) to be taken from the mill docks, at $11.50 per M—cash only thrown out. The parties purchasing ... St Louis, to which place the lumber is to be shipped.

SET OUT TREES.—Farmers may see from the following paragraph, which we copy from the Whitewater (Walworth Co) Gazette, what may be done in raising trees on the prairies.

A SUGAR BUSH ON THE PRAIRIES.—An old Pioneer in this town, by the name of SAMUEL PIERCE, has growing upon his farm, about a mile from the village maple trees set out by him that ... tapped this spring, obtaining sufficient sap to make quite an amount of maple sugar—Some of his maple trees are 6 inches in diameter, having been transplanted only about five years.

MORE HOUSES WANTED.—Every dwelling in Berlin is full and a number of families have been compelled to go elsewhere already to get a shelter for their heads. Sacramento we understand has by this means been filled, and still the cry is "more house." What shall we do when the ... emigration begins to pour in upon us as it ever has done before. Every possible facility should be put into immediate requisition to add to the living capacity of this village. Almost every third man you meet is inquiring for a house to rent? Shall they be supplied? Persons having vacant lots and the means to build, should at once take hold and supply this crying necessity. A few good house carpenters would find it to their interest to locate here immediately, in fact Mechanics of all kinds are in great demand.—Berlin Courant, 17th inst

WINTER WHEAT. It is said never presented a more promising appearance, being now well rooted and entirely out of danger of frosts. There was probably not a large breadth sown last fall, but what was sown, never looked better at this season of the year.

Farmers are beginning their spring's work in earnest. The plowing has commenced and the sowing will commence soon.—[Fond du Lac Herald.

DEMAND FOR WHEAT.—Such is the scarcity of wheat that the city millers are sending agents south and west to secure supplies. The arrivals during the week have been mainly to the millers direct, who have bought up all the desirable lots at the southern markets yet their supplies will not ... a month. Wheat appears to be relatively higher than flour. The absence of a supply of wheat with all the southern millers is a very unusual state of things.—Many millers in the interior of Maryland have their mills idle.—N Y Evening Post

IT IS TRUE!—It is related to us—and we give it for the benefit of the extreme anti-Know Nothing press so credulous in anything and everything marvellous concerning that mysterious order—that the Know-Nothings of Addison hold their councils in a cave in one of the hills near that village. One after another creeps through the hole, and the last one that goes in takes in the hole with him! They thus defy detection.—[Elmira Republican, N Y

Buying Cattle in Michigan.

We have never told although often times urged thereto of our adventure with Mitchell's money in Michigan, last fall while buying oxen for lumbering. And there! we don't believe that half of our readers are aware that we are a live editorial lumberman. But of that, some other time. It was to the rural and innocent population of Rome Centre near Adrian that we appeared in company with our friend H——, in the character of drovers, at the time mentioned with both pockets full of money, for the purchase of working oxen. At that time Indiana money was at the very worst—Illinois and most other States, to except Wisconsin which went thro' the monetary panic, as we all know, with flying colors. To make all things sure, we had stopped on our way East, at our friend Mitchell's "institution" in Milwaukee, and made up our "pile," for the most part, to his money and so fortified went our way, snapping our fingers at money panics and breaking banks.

But Mitchell's fame as a reliable banker, tho' it may have extended throughout the West, had not penetrated the heart of Lenawee county, in the State of Michigan, and the good people there knew him not. The newspaper—the Adrian Watch Tower, or something of that sort—advised its readers to refuse all Western money except Michigan the only store keeper at Rome Centre advised our friends, the owners of the cattle, not to take it, and it was by long and tedious argument and exposition of the plan of Wisconsin banking, that at last they charily took it in to their own fingers, and parted with the oxen.

We were about ready to come home, had been down at Adrian on some business and driving back up to the tavern step at the "Centre" found a large crowd in the street, with our friend H—— in the midst and all very much excited! "Here he comes!" exclaimed some of them, moving towards us in an almost menacing manner. "Yes, here he comes," said H——, whose appearance denoted some little excitement also, "here he comes and he'll straighten it out, for you." There was evidently a row in prospect and in looking around for reinforcements, we couldn't for all the world see one friend beside H——. The tavern-keeper was a pretty clever fellow but probably had run for office some time or other and learned better than to go against the crowd. Besides, he was getting ready to give a balloon ascension, and showmen want the good will of the people. So there was no hope from him, or any one else but H——, and like a "forlorn hope" we awaited the breaking of the storm. "And so," said the ring-leader, whom we recognized as having sold us a fine pair of cattle the day before, "after all your fine stories about this money, the bank is closed."

"My dear sir," we remarked, with tremendous dignity, "we tell no fine stories, the bank is not closed."

"That would do to tell yesterday, but it won't to day," said he, this money is bad. The bank is closed, Thompson's Detector says it is. You are trying to cheat us out of our cattle. It won't do sir, you can't come it, no sir-ee!"

For a moment things did look badly. The only explanation which suggested itself to us on the instant, was that Thompson, in one of his freaks, had undertaken to put down the Wisconsin Marine and Fire Insurance Co Bank and unseemingly announced it as closed. We suggested this matter to the excited crowd and entered upon an elaborate panegyric of our friend MITCHELL whom we represented as probably the most honest man out of Scotland, and the least likely of all the bankers on the American Continent to burst up—for all of which we charge him nothing—our object being not so much to give him popularity, as to make his money current, until we could with our cattle, get out of Lenawee county, Michigan.

But all that did not avail, and, much perplexed, we accompanied the crowd to the store where the ill-fated Detector was to be seen—reflecting meanwhile upon what it all could possibly mean. It suddenly struck us that the old "institution," which existed prior to our new banking law, had "closed" and the new one, under the same name, or nearly so, had commenced business. The difficulty was solved at once but we didn't mention it to the crowd, preferring to put them to confusion in the best possible style, so we marched into the "one-horse" store at the head of the cattle seller, and called for the Detector. There it was, as plain as daylight:

In all probability, a more foolish looking set of fellows was never seen in these parts, when we showed the last clause to them, and asked, seriously, if they knew how to read. They marvelled one with another," and then quietly as opportunity offered, slipped out unobserved, and went their ways. After that we found no difficulty in buying cattle, and Milwaukee money was in better repute than any other.—[Green Bay Advocate

The Nunnery Investigation.

The Roxbury affair, not over clean at first, is growing decidedly dirty, and appears to possess within itself an extraordinary fecundity of nastiness. If things go on at this rate, decent newspapers must stop the discussion. The Lowell scandal intrudes itself as a piece of quite superfluous indecorum but it has been brought so directly before the House, that investigation cannot be avoided. What will come next is known only to Bacchus and Venus. But while the tendency of those disclosures is to divert the public attention from the original sins of the Committee we must continue to remind our readers of the initial ... wrongs which aroused this tempest of indignation. We have had our joke at Mr Joseph Hiss, and he is just now the best kicked and cuffed man in Massachusetts, but we have not, meanwhile been unmindful of the other gentlemen who played minor parts in this blackguard burlesque. We have not forgotten the indelicacy with which a crowd of inquisitive quidnuncs were invited to participate in the raid against a religious house. We have not forgotten the Paul Pry imprudence with which the delegation popped in the coarse self introduction, the surveillance of sinks and cellars, the tobacco scented gale which were wafted into the nostrils of a sick girl. We have not forgotten the feast which followed, the wine bought by law makers, and quaffed by law breakers the delicacies devoured with a relish which no landlord's long bill disturbed. We have not forgotten that when these things were first brought to light the organ of the Commonwealth met them with a point blank denial and averred that the committee men in every word and in every action, were uncommonly genteel. We have not forgotten the wrath of Senator Dawley, the calls of Senator Carpenter for committee.

Then the Advertiser was the bear and the Legislature the dog. Pursuer and pursued have changed positions, and now the dog is a "beetle ... shed." We have not forgotten these things—the public will not forget them. The ... of the ... with infinite gravity hopes that this subject will occupy the public mind more than another week." Upon this point it may possess its soul in peace. The freshness of the caricatures will not be lost in a twelvemonth, and the jokes will have a long day of it. Those who are laughed at and those who are sneered at are terribly dull of comprehension and fancy that they are ill used. We pity them, and in pity will vouchsafe an emollient explanation. They wish to make a scape goat of Mr Joseph Hiss—they are themselves the scape-goats of the Legislature. They have been brought to the door of the tabernack, and upon their backs have been laid the weakness and the wit nesses the Bulls and the blunders of the Great and General Court. The train was already laid their unlucky hands fired it, and an explosion of laughter followed—The Roxbury visitation furnished a culminating point, beyond which gravity was impossible.

After the ridicule let us hope for reflection.—When the Know Nothing movement commenced in Massachusetts we opposed it in no bitterness of spirit but with a thorough consciousness of its hollowness and insincerity. When the hour of its great success came, we were startled but not disheartened. The victory, magnificent as it was, cost too much—it cost the truth, the self-respect, the personal honor of the victors. Men who had mounted the anti-alien hobby, rode bravely upon that stalking horse into the State House and the Capitol. They fancied that success was all in all—this was first to be achieved, and virtue afterwards, if practicable. Such men are always the ... artificers of their own ruin. When no common principle unites the leaders of a party, creating a feeling at once of honor and friendship politics sink into a voracious scramble for office, and disunion speedily follows dissension. Hardly a moiety of the eighty thousand men who voted the Native American ticket, heartily accepted the Native American principles. It is not surprising, therefore, that our Legislature is composed of heterogeneous materials, unfused and infusible. It is not strange that we find it appointing foolish committees and sending them upon tom-fool's errands. It is not strange that some members are weak, some bigoted, some malicious, and some heartily sick of the whole affair. There might have been salvation in the shortest and silentest of sessions—but nothing can now prevent a counter revolution in Massachusetts, quite as extraordinary as that of last November.—[Boston Atlas.

THE SAULT DE STE MARIE CANAL.—Some of our lake exchanges are publishing a statement that the Ste. Marie Canal will be finished some time next month. Those who entertained such hopes will be disappointed. The canal will not be finished before the first of June—perhaps not then.—[Cleve Leader

S R Cotton, Esq, of Green Bay, is announced as an Independent Candidate for Circuit Judge in the new Circuit set off from the 4th. The election is to come off on the first Tuesday of May next.—[Fond du Lac Herald.

The Judicial Election.

We refer our readers to the figures on this subject contained in another column. They tell the story and nothing we could say, would add to their expressive eloquence. We are sure they will prove satisfactory to a very large majority of our readers—indeed, we think satisfactory is hardly a sufficiently expressive term. We doubt whether the result of any heretofore election, carried such real joy to the hearts of all true lovers of the rights of man and the well-being and interests of humanity as this.

The reason of this is evident. It was felt to be a crisis—a point where it was to be determined whether the State was to go forward in the glorious career upon which she had recently entered or to hesitate, to falter, and eventually recede. Thank God, the public pulse beats firm and true and strong. Nor is it a doubtful or uncertain vote or majority. We think it will be found to be as full a vote as has ever been cast in the State, and the majority is such as to leave no room for dispute or cavil as to the public sentiment.

Nor can it be doubted, that it was the issues which grew out of the action of our Supreme Court which determined the question. Crawford and Cole were well matched in all respects, and we are not aware during the whole canvass that personal attacks were made upon the candidates on either side. The advantages, so far as there were any, were all in favor of Crawford. Yet he is borne down defeated,—and it cannot be denied or doubted—it is because the people were determined there should not be room even for a remote suspicion that they did not fully sanction the position of Smith and Whiton.

The battle on this question is fought and decided. The last appeal has been taken. The fugitive law in this State is dead. And its upholders and abettors—those who sustain it indirectly and skulkingly as well as those who sustain it openly—are politically dead with it.

No State in the Union occupies at this moment so high and proud a position as Wisconsin. Her citizens have done well—they have reason to rejoice.—[Kenosha Telegraph

Important from Paraguay.

The bark Argentine has arrived at Salem, with Buenos Ayres dates to Feb 13. A letter received by a firm in this city says:

"The U S steam-vessel Water Witch has been fired into by the Paraguayans and forced to retreat. As there is no American vessel of war in these waters, you must wait awhile before the matter can be looked into."

The Buenos Ayres Packet, of Feb 10, received by the same vessel, contains the particulars of the occurrence. After the troubles between the government of Paraguay and U S Consul Hopkins, the former forbade any vessels of war from ascending the Parana river.

The captain of the Water Witch, Capt Page, considered his vessel as merely a surveying vessel as it has been engaged for over a year past in surveying the Parana river. Capt Page, on the 31st of January sailed from Corrientes to explore the Rio Salado, leaving orders with Lieut Jeffers to proceed in the Water Witch up the Parana. In going up, he went on shore near a battery, the garrison of which prepared the guns for action, and Lieut Jeffers having refused to receive a paper from on shore which he could not read, it being Spanish the following occurrence took place as described by a writer in the Packet:

"At 1.20 the Water Witch was under way and the pilot then was directed to steer so as to pass through the main channel, which passed on the Paraguay side of the island. When nearly opposite the battery, a semi circular brick or red-stone fort mounting about six guns and at a distance of three hundred yards, she was hailed, which hail was neither understood nor responded to, this was shortly followed by two blank cartridges, and then by a shot which cut the wheel-ropes, disabling the steering wheel, and mortally wounding the man at the helm. Lieut Jeffers then gave orders to fire in return, still continuing his course up the river.

"The pilot, as soon as the firing began, ran below and was with difficulty got on deck again, and then, on looking around, exclaimed that it was impossible to pass on as there was not sufficient water in the channel, the vessel being then in ten feet water. By this time she had passed all the fire of the battery, except one gun, and on return was compelled to repass it. The channel being too narrow to turn in, the Water Witch was backed down stern foremost, exposed to a severe fire, which she continued to return until beyond its reach."

It is worthy of remark, that no flag was displayed at the battery, so that, in reality, the nation of the enemy can only be conjectured.

N. Y. Legislative Resolutions.

The Joint Resolutions proposed by Mr. Robertson in the Senate, in regard to Slavery and Secret Political Societies, and adopted by that body, passed the Assembly last night by an average vote of ten to one.

Their tone is just and dispassionate, as befits the dignity of the State that utters them. But they reiterate in the most decided and emphatic terms the determination of New York to maintain, so far as lies in her power, Freedom of Speech and Freedom of Soil.

While recognizing every obligation imposed by the Constitution for the return of fugitives from service, they demand the Repeal of an unjust Law for which the Constitution gives no warrant.

While disavowing all intent or right to interfere with the institution of Slavery in States where it exists, they denounce the attempt to thrust it into new territory once pledged to Freedom. Released by that act from all obligations of Compromise, they demand that Kansas and Nebraska when they come into the Union, shall come into it FREE.

In conclusion, they reiterate the solemn warnings of Washington's last address against secret combinations and associations to check freedom of discussion and open, untrammelled and independent political action.—[Albany (N Y) Eve Journal.

FIRE.—One night last week, the steam mill of Mr George May of Fort Atkinson, was discovered to be on fire. The alarm was given and the citizens were collected together in time to save the building with but slight damage. It is located immediately on the margin of Rock River, and as there happened at the time, to be no wind it was comparatively an easy task to extinguish the flames. We understand that the belief is very general in that village, that this was the work of an incendiary. The fire was discovered on the roof, and nearly or quite all the damage sustained, was to that part of the building. Those present discovered the trail of shavings which apparently had been carried from a work shop connected with the mill to a location directly under the spot where the fire was first discovered. It appears that these shavings had been placed upon the plate on the south side of the building and there set on fire, and thus the flames were communicated to the roof. Pieces of burnt shavings were found below apparently to have fallen from this position. Certain parties are strongly suspected but we are not advised that sufficient proofs have been discovered to warrant an investigation.—[Jeffersonian

RAFTS.—For several days past the river at this place has been filled from shore to shore, and for considerable distance above the bridge with pine logs, which have found their way into it from the Northern Pinery, and the raftsmen have been putting them in shape to pass the chute in the dam below. On Tuesday, all things being ready, the somewhat exciting operation of running them down commenced. There was also above the boom quite a number of rafts of tamarack piles, which were to go down the river. Our citizens who are fond of sport gathered about the chute to witness the performance, and seemed to think it paid quite as well as the majority of amusements. Some of the rafts were not sufficiently strong to pass the descent in the form in which they approach it but broke in pieces, not unfrequently leaving the men who were on them upon a single log, and that rolling and tumbling in the current in such a manner as to induce us to believe that a person, to run logs with safety needed to be something of a circusman, if not more.—[Jeffersonian

THE FUGITIVE CASE IN NEW YORK.—The slave girl who escaped from Richmond in the steamer Jamestown, and came to this city, was not recovered by the captain, and he had to go back without her. The penalties for carrying off a slave from Virginia are very severe—a fine of two thousand dollars and imprisonment for five years. When he arrived in Richmond he found that the girl's owner had not yet become aware of her escape. The captain related all the facts to the owner, and she let him off on paying $1,250. All the facts of the case are given at length in another column, as derived from the officers of the steamer.—[N. Y. Post, 14th.

NAVIGATION.—The season of navigation was inaugurated on Saturday last by the arrival of one steamboat and the departure of two. Early in the morning a shrill whistle was heard above the upper town, and those who were curious enough to go to the edge of the bluff to see whence the sound proceeded—and their name was legion—beheld the little MONTELLO, Captain Russell, puffing down stream from the Minnesota, as bold as a bantam. Captain Russell reports that the ice was not out of the Minnesota at Fort Ridgely, on the 3d inst, and although it was his intention to go to the Agency, from his winter quarters at Henderson, yet he concluded it best to turn toward St. Paul. He is the first arrival of the season, and we greet his advent most cordially, in common with the hundreds who gave him a warm welcome as he rounded to the upper landing.—[St. Paul Pioneer, 9th

CLEARED FOR BUFFALO.—The schooner D. O. Dickinson Capt WAFFLE, has taken on 2083 bbls flour 400 bbls pork, and 3136 bush of wheat, —worth nearly $30,000—and cleared for Buffalo, and will be off with the first fair wind. This handsomely moulded vessel came out from Capt. Jones' ship-yard in the spring of '54, and was run throughout last season, without having time for full justice to be done her in the way of exterior finish. She has been thoroughly refitted, and painted and looks a good deal better than new for a successful season to her.

NO GALE.—The gale, of which the high wind of Thursday afternoon was thought to be the precursor, did not come, after all. The waves outside were considerably moved, but not so as to make any serious difficulty. The favorable wind yesterday, brought in quite a fleet from the lumber ports.

OFF.—The staunch brig Robert Burns, Capt CLIFFORD, got out of port about 5½ o'clock drawing 9½ feet water, and, with a good breeze, went on her way for Buffalo. Good luck go with her!

JACKSON ST M E. CHURCH.—We learn that the Jackson St Methodist Episcopal Congregation, which has been without a pastor for some months, has secured the services of Rev A McWright, late of Grant Co.

NEW BOOKS.—WILSON has received a host of new books, just from the press. His list of them is unavoidably deferred to-day, but everybody can stop in at his store and look over the collection.

GOOD TRIP.—The Pacific remained over at Chicago till yesterday morning, and then, leaving early, arrived here shortly after noon. She returned last evening, with a good load.

The fine brig Empire State, Capt. DIMMICK, is now loading for Buffalo at Pirie & Co's warehouse, and will soon be ready to sail.

PANORAMA THIS AFTERNOON.—Remember the afternoon exhibition to-day, at Young's Hall. Don't fail to make the journey.

The steamer Traveller arrived from Chicago yesterday afternoon, with a large load of passengers and freight.

REAL ESTATE.—J B STONE sold yesterday, five acres on the Watertown Plank Road, beyond the city limits, at $300 per acre.

SIDEWALKS AT MADISON.—The Madison Journal says that the Trustees of that village have ordered five miles of side-walks to be made immediately. It is just what Madison needs.

Female Complaints Effectually Cured by Holloway's Pills.—Mrs. Mary Pearson, of Market st., Missouri, aged 45, about two years ago was thrown on a bed of sickness for several weeks. Her arms and legs became much swollen, and it appeared to the medical men whom she consulted, at this period of life, that she was dropsical.—She gradually grew worse, until all hope of her being cured was abandoned by her husband and friends. At this crisis Mr Pearson persuaded her to have recourse to Holloway's Pills, and by persevering with them for six weeks she was perfectly well. They are an excellent medicine for young females with obstructions in their health entering into womanhood.

RELIABLE EVIDENCE.

BLOOMFIELD, Mo, January 15, 1854

Messrs A G BRAGG & Co,

DEAR SIRS, Allow me to add my testimony to the excellent properties of your Mustang Liniment, in all cases of burns or scalds. I had a son badly burned on his face and hands by powder. It was expected that he would be badly scarred for life. We applied the Mustang Liniment, and in ten days I was entirely well and is no scar, or mark whatever. My wife used it in a case of scald from boiling hot tallow and it had the same good effect.

Yours, truly, D B MILLER, County Judge

RUSSELL COUNTY, Ala, Feb 1, 1853

For the benefit of the afflicted, I feel it my duty to state publicly the remarkable cures that have been effected in my family by the use of the Mustang Liniment. A negress of mine had what is called a Bone Felon, or Whitlow on her finger. The inflammation had been so extensive that the whole finger had become a mass of corruption, and the only hope of saving her hand and perhaps her life appeared to be to have it cut off. As her general health was very delicate, the Physician advised us to try the Mustang Liniment a few days, till she could be sent to a surgeon in Columbus as it could do no harm and might prevent mortification. To the astonishment of the doctor and myself, the pain soon ceased, the inflammation subsided, and the wound rapidly healed. The finger is perfectly well and sound. One of my boys was severely burned, the skin was entirely taken off from the knee to the ankle. The Mustang Liniment was freely applied, and no thing else was used. The relief and cure were almost beyond belief, but a short time elapsed before the wounds were perfectly healed. I consider it an invaluable remedy, and it should be in every family and on every plantation.

JAMES PHIL P...

NOTHING NEW—BUT EVER TRUE.—It would be nothing new to say that the Mustang Liniment had been and was now more used in the United States than any other preparation. But it would be true to say that it has been more uniformly successful in healing wounds, bruises, burns, cuts, and all manner of sores, as well as piles, erysipelas, pains or lameness in the back, side or limbs, rheumatism than any other remedy. Those are facts that millions of persons know from having used it. We say millions, and base the assertion on the fact that over fifteen millions of bottles have been used, and never heard a complaint against it, where it has been used as directed and used thoroughly. We deem it necessary occasionally to remind the people of these facts to induce those to try it who may never have had an occasion to use it. One trial is all we ask the most incredulous—and such a trial will only cost 25 cents.

PRICES.—It is put up in bottles of all sizes, and is sold at 25 cents 50 cents, and $1 per bottle. The fifty cent and one dollar bottles contain three times as much as the twenty five cent size in proportion to their cost. The large bottles are the cheapest.

The New York Council and Dr. Peck—The New Liquor Law.

NEW YORK, April 19.

A resolution was adopted by the Board of Councilmen last night, by a vote of 28 to 17, granting the use of their chamber to the friends of Dr. Chas. A. Peck and other American prisoners in Cuba. The subject created considerable excitement, and at a late period in the evening was laid on the table by a vote of 21 to 18. Next Monday evening is the time talked of for the proposed public meeting in the Park to consider the matter.

The Dist. Attorney has given an opinion in reply to an inquiry from the Mayor, that between the 1st of May, when the licenses expire, and the 4th of July, when the Liquor law goes into effect, anybody and everybody may sell with perfect impunity, every day, Sundays included. The ordinance recently passed prohibiting the sale of liquor on Sunday, was repealed last night by the Council.

SUDDEN DEATH —Mr.—MOHR, who had been for some months past stopping at the Railroad House, died suddenly last evening. When he retired to his room in the early part of the day, he was in apparent good health. About half past — o'clock in the evening some one attached to the house rapped at the door, enquiring if he wished for anything. He answered, "Not at present" To a second summons, about half past 10, no answer was returned, whereupon the landlord of the house fearing that he might have been suddenly taken ill, called in a physician, and as no reply was made to their summons, they entered the room, when he was found dead. A post mortem examination proved that he died of apoplexy He was a native of Germany, but spent the greater part of his life in South America, and arrived in the United States in 1853 He was unmarried, and about 40 years of age. Mr. MOHR won the respect and esteem of all who became acquainted with him, and many will mourn his sudden death. He was a gentleman in the fullest and only true sense of the word.—[News, of yesterday.

FIRE —Not many days since, the dwelling house of Mr. MASON, of this town, was totally destroyed by fire. Household goods all, or nearly all saved, and we learn that the building could have been saved as well as not, had there been any of the necessary facilities for extinguishing the destroying element And on Saturday of last week, the dwelling house of Mr Bercherrer, near this village, was burned. Whether or not anything was saved, we have not learned. These fires should serve as lessons to our people generally, and induce them to place themselves in such a situation as to be able to protect their property in case it should become necessary.—[Jeffersonian.

IMMENSE COLLECTION OF FOREIGN DEAD LETTERS —At the dead letter branch of the General Post Office Department there were made up and transmitted, on the 30th ult, for England 31,000 letters, Canada 8,000, Prussia 5 000, and Bremen 4 000. These were all received during the last quarter They were regularly filed and advertised as all other letters, but not being called for by their owners, have been returned unopened to the countries from whence they came

ESPIONAGE —The German papers announce that all the French correspondence from Sebastopol is instantly submitted on the steamer's carrying the mail to Constantinople, to a strict scrutiny, so that nothing may ooze out distasteful to the French nation, or in any way exposing the measures taken by the Emperor, who thus, in every respect, in the smallest details shows himself a suspicious and accomplished despot.

THE STEAM FRIGATES NOW UNDER CONSTRUCTION —The work on these six vessels and their machinery is understood to be progressing quite as rapidly as can be wished. It is judged that the Merrimack (under construction in the Boston Navy Yard) will be ready to be put into commission as early as the end of September next, and that the next one that will be ready to go to sea will be the Minnesota, built at the Washington Yard.—[Washington Star, Saturday.

BOSTON, March 12, 1853.

Messrs A. G. BRAGG & Co —I have been using your Mexican Mustang Liniment for some weeks, and it has produced a cure on me that is truly wonderful. For the last three or four years I have had a large bunch gather on the sole of my foot, covering one-half of the whole surface, quite hard and bony, yet as tender and sore as though the flesh was entirely bare. I have tried various remedies, and consulted many medical men of high standing, and have had my foot lanced numerous times, and not long since the hard bunch was cut out, but to no effect I noticed your Liniment was advertised as a cure for sores, tumors, hard bunches, &c, and I made a trial and by the use of two bottles my foot has entirely recovered, and is now as smooth and soft as it ever was There are hundreds who are knowing to the above, and have seen the foot, and can testify that the same is true Yours, most respectfully, THOMAS MARRON

EVARTS' Patent Shingle Mill.

EVARTS & BUTLER, PROPRIETORS AND MANUFACTURERS CHICAGO, ILLINOIS

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood. The saw with which wood is worked in that direction gives it speed of execution, and the flexibility of the shingle width wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market seventy five cents per thousand higher than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

RHODES' FEVER AND AGUE CURE, OR, NATURE'S INFALLIBLE SPECIFIC.

FOR the Prevention and Cure of Intermittent and Remittent Fevers, Fever and Ague, Chills and Fever, Dumb Ague, General Debility, Night Sweats and all other forms of disease which have a common origin in Malaria or Miasma. This subtle atmospheric poison which at certain seasons is unavoidably inhaled at every breath, is the same in character wherever it exists,—North, South, East or West,—and will everywhere yield to this newly discovered antidote, which is claimed to be the GREATEST DISCOVERY IN MEDICINE EVER MADE.

This specific is so harmless that it may be taken by persons of every age, sex or condition, and it will not substitute for one disease others still worse, as is too often the result in the treatment by Quinine, Mercury, Arsenic, and other poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation.

The proprietor distinctly claims those extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.

It will entirely protect any resident or traveler even in the most sickly or swampy localities, from any Ague or Billious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have another chill, by continuing its use according to directions.

It will immediately relieve all distressing results of Billious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families and all classes. Farmers and all laboring men by adopting it as a preventative will be free from Ague or Billious attacks in that season of the year which, while it is the most sickly, is the most valuable one to them.

One or two bottles will answer for ordinary cases, some may require more.

Directions printed in German, French and Spanish, accompany each bottle.

Price One Dollar. Liberal discounts made to the trade.

Trade circulars forwarded on application, and the article will be consigned on liberal terms to responsible parties in every section of the country.

Farm for Sale.

THE SUBSCRIBER WILL SELL ONE of the best Farms in Milwaukee County, situated in Oak Creek township, adjoining the town of Lake, eight miles from Milwaukee, on the Chicago road. The Lake Shore Railroad passes through the center of the Farm at right angles, and the Depot is within one hundred rods of the farm.

The farm contains about ninety acres good timber, and the best watered farm in the county. The House is large and location fine. One 30 by 40 Barn, one 20 by 40 Barn, a Granary 18 by 20 and other out buildings. An Orchard of 70 bearing Apple Trees all grafted fruit.

The subscriber bought the farm fourteen years ago, of John T. Haight, Esq., who surveyed this part of the country. All who know the place will say that a better dairying farm can not be found.

The New York Council and Dr. Peck—The New Liquor Law.

New York, April 19.

A resolution was adopted by the Board of Councilmen last night, by a vote of 28 to 17, granting the use of their chamber to the friends of Dr. Chas. A. Peck and other American prisoners in Cuba. The subject created considerable excitement, and at a late period in the evening was laid on the table by a vote of 21 to 18. Next Monday evening is the time talked of for the proposed public meeting in the Park to consider the matter.

The Dist. Attorney has given an opinion in reply to an inquiry from the Mayor, that between the 1st of May, when the licenses expire, and the 4th of July, when the Liquor law goes into effect, anybody and everybody may sell with perfect impunity, every day, Sundays included. The ordnance recently passed prohibiting the sale of liquor on Sunday, was repealed last night by the Council.

SUDDEN DEATH.—Mr.—Mohr, who had been for some months past stopping at the Railroad House, died suddenly last evening. When he retired to his room in the early part of the day, he was in apparent good health. About half past 8 o'clock in the evening some one attached to the house rapped at the door, enquiring if he wished for anything. He answered, "Not at present." To a second summons, about half past 10, no answer was returned, whereupon the landlord of the house fearing that he might have been suddenly taken ill, called in a physician, and as no reply was made to their summons, they entered the room, when he was found dead. A post mortem examination proved that he died of apoplexy. He was a native of Germany, but spent the greater part of his life in South America, and arrived in the United States in 1853. He was unmarried, and about 40 years of age.

Mr. Mohr won the respect and esteem of all who became acquainted with him, and many will mourn his sudden death. He was a gentleman in the fullest and only true sense of the word.—[News, of yesterday.

FIRE.—Not many days since, the dwelling house of Mr. Mason, of this town, was totally destroyed by fire. Household goods all, or nearly all saved, and we learn that the building could have been saved as well as not, had there been any of the necessary facilities for extinguishing the destroying element.

And on Saturday of last week, the dwelling house of Mr. Bercherrer, near this village, was burned. Whether or not anything was saved, we have not learned. These fires should serve as lessons to our people generally, and induce them to place themselves in such a situation as to be able to protect their property in case it should become necessary.—[Jeffersonian.

IMMENSE COLLECTION OF FOREIGN DEAD LETTERS.—At the dead letter branch of the General Post Office Department there were made up and transmitted, on the 30th ult., for England 31,000 letters, Canada 6,000, Prussia 5,000, and Bremen 4,000. These were all received during the last quarter. They were regularly filed and advertised as all other letters, but not being called for by their owners, have been returned unopened to the countries from whence they came.

ESPIONAGE.—The German papers announce that all the French correspondence from Sebastopol is instantly submitted on the steamer's carrying the mail to Constantinople, to a strict scrutiny, so that nothing may ooze out distasteful to the French nation, or in any way exposing the measures taken by the Emperor, who thus, in every respect, in the smallest details shows himself a suspicious and accomplished despot.

THE STEAM FRIGATES NOW UNDER CONSTRUCTION.—The work on these six vessels and their machinery is understood to be progressing quite as rapidly as can be wished. It is judged that the Merrimack (under construction in the Boston Navy Yard) will be ready to be put into commission as early as the end of September next, and that the next one that will be ready to go to sea will be the Minnesota, built at the Washington Yard.—[Washington Star, Saturday.

DR. C. P. FITCH, Dentist, (LATE OF NEW YORK CITY,)

HAS THE PLEASURE OF ANNOUNCING TO THE Citizens of Milwaukee, that he has opened Rooms in the **Law Buildings, Wisconsin Street,** FOR DENTAL OPERATIONS.

Dr. F. introduces to this community the New Method of constructing Artificial Dentures on Platinum, called DR. J. ALLEN'S

Continuous Gum Work,

combining cleanliness, great beauty, with life-like expression, strength, utility, and restoration of the form and contour of the face. Specimens may be seen at his Room any time during office hours.

After twelve years experience in dental practice, Dr. F. takes great pleasure in warranting all operations in the mouth, such as Gold Stoppings, Gold Plates, Teeth on Pivots, Teeth regulated, cleansed and extracted, &c.

Strict attention will be paid to all diseases arising from, or in any way connected with decayed teeth. Also, counsel given in reference to the management of children's teeth. Advice and counsel given without charge.

BOSTON, March 12, 1853.

Messrs. A. G. Bragg & Co.—I have been using your Mexican Mustang Liniment for some weeks, and it has produced a cure on me that is truly wonderful. For the last three or four years I have had a large bunch gather on the sole of my foot, covering one-half of the whole surface, quite hard and bony, yet as tender and sore as though the flesh was entirely bare. I have tried various remedies, and consulted many medical men of high standing, and have had my foot lanced numerous times, and not long since the hard bunch was cut out, but to no effect. I noticed your Liniment was advertised as a cure for sores, tumors, hard bunches, &c., and I made a trial and by the use of two bottles my foot has entirely recovered, and is now as smooth and soft as it ever was. There are hundreds who are knowing to the above, and have seen the foot, and can testify that the same is true.

Yours, most respectfully, THOMAS MARRON

The description of it is as follows, given by the owner, and he offers it on easy terms.

The said Farm is situated upon the west end of Pewaukee Lake, two miles south of the village of Hartland, in Waukesha county, containing three hundred and thirty acres of land, well watered by springs, and has a mile of front on the lake—has a good frame house and barn located upon the bank of the Lake, with good hard gravelled shores, and is surrounded with groves of oak, hickory trees, such as grow in abundance last season, the ... about ... hundred bushels on the premises.

The above Farm was one of the first locations made in Waukesha county, in 1836 and over has over one hundred acres under plough, in a fine state of cultivation—about sixty acres of good hay land, the balance timber—is all under fence, has a plank road within two miles on the south and a good road within two miles on the north—the depot, at Hartland, on the Milwaukee and Watertown Railroad, is within two miles. Pewaukee Lake abounds with the finest kind of fish. The Farm is one of the best Stock Farms in all the Western country—none excepted. It is 25 miles from Milwaukee—8 miles from Waukesha. Terms is one quarter cash—balance in 1, 2 and 3 years, with 7 per cent interest.

Now, who of you want a Farm? Here is a chance seldom offered; and it will be sold at a great bargain. Apply to apr18 CALEB WALL, Agent

THE UNDERSIGNED WOULD RESPECTFULLY announce to the Public, that he has opened, on Spring Street, Opposite the American House A NEW PIANO FORTE WARE-ROOM! Where he will keep on hand a good assortment of the celebrated AMERICAN ACTION PIANO FORTES, Manufactured by George Hews, of Boston, Mass

The Patent American Action Piano Forte is distinguished for its great fullness, richness and sweetness of tone, evenness of scale, and delicacy of touch The improvement in the Action renders it less liable to derangement, and so greatly facilitates execution Numerous medals, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession, residents at Boston and elsewhere, among which are the following:

From the illustrious Pianist L M Gottschalk, to M Hews, Agent at New York New York, Dec 1 1842.

Mr N J CURTISS — Dear Sir Having had the pleasure of performing upon one of Hews American Action Piano at the World's Fair in this city the present year, and other of his Pianos at your Wareroom which afforded me much gratification, I cheerfully recommend them to the public I am very glad of the improvement in the action These instruments likewise are of excellent tone, owing, no doubt, to the perfection of the scales Very Respectfully, L M GOTTSCHALK

From the distinguished Pianist, William Mason Mr. Hews —Having repeatedly played upon the Pianos manufactured by you, with the American Action, I am free to acknowledge, that for certainty and elasticity of action, power, purity and equality of tone, I have never seen them surpassed in the square Piano Forte WILLIAM MASON

Purchasers and lovers of music in general, are respectfully invited to call and examine these instruments The Pianos will be sold at Boston prices, and warranted to give satisfaction in every respect Pianos to Let Old Pianos taken in exchange, at a liberal price allowed Pianos Tuned and Repaired no 21 F C MENDE

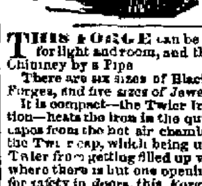
QUEEN'S PATENT PORTABLE FORGE AND BELLOWS!



THIS FORGE can be set where most convenient for light and room, and the smoke conducted to the Chimney by a Pipe

There are six sizes of Blacksmiths, Coppersmiths, &c Forges, and five sizes of Jewelers Dentists and Chemists. It is compact—the Twier Iron is of a superior construction—heats the iron in the quickest manner—the wind escapes from the hot air chamber through several holes in the Twier cap, which being under the fire, prevents the Twier from getting filled up with coal and ashes, as it will where there is but one opening For out door work and for safety in doors, this Forge has great advantages over others having two Slides by which the forge can be closely shut up and for safety and many purposes in doors, particularly for Jewelers, Dentists and for chemical operations all the fumes from charcoal and acids being conducted through the smoke pipe, or when open they are entirely out of the way. It is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed

It is the best Forge for Contractors on Railroads, Public Works, (for making repairs out to some hand for engagement,) to new countries, ever offered to the public, and are all successfully used by most of the steamers, and also by the U S Army and Navy For sale by G P HEWITT & SON, No 93 East Water st., Milwaukee, apr7 dtf Agents for the Manufacturers

PATENT MEDICINES.

CHERRY PECTORAL,

or the rapid Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

AMONG the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyments, and even prolong the term of human existence none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use but we would present the following, and refer for her enquiry to my American Almanac, which the Agent below named, will always be pleased to furnish free, wherein are all particulars, and indisputable proof of these statements

Office of Transportation, Laurens R R, S C, Aug 4, 3

Dr J C Ayer Dear Sir,—My little son, four years old, has just recovered from a severe attack of malignant Scarlet Fever, his throat was rotten, and every person that visited him pronounced him a dead child Having used your Cherry Pectoral, in California, in the winter of 1850, for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy I gave him a teaspoonful every three hours, commencing in the morning, and by 10 o'clock at night, I found a decided change for the better, and after three days use, he was able to eat or drink without pain

Its use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent For all affections of the Throat and Lungs I believe it is the best medicine extant A feeling of the deepest gratitude prompts me in addressing you these lines—but for your important discovery, my little boy would now have been in another world

I am yours, with great respect J D POWELL, Supt Trans., L R R

Rocky Hill, Somerset Co, N J, July 21, 1852

Dr J C Ayer —Since your medicine has become known here it has a greater demand than any other cough remedy we have ever sold It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the best they can say of it is not too much for the good it has done I take pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel gratified in seeing the benefit it confers

Please send me a further supply, and believe me Yours with respect, JOHN C WHITLOCK.

P S —Almost any number of certificates can be sent you if you wish it

Windsor, C W, June 26, 1855

Dr J C Ayer—Sir —This may certify that I have used your Cherry Pectoral for upwards of one year, and it is my sincere belief that I should have been in my grave ere this time if I had not It has cured me of a dangerous affection of the lungs and I do not overstate my convictions when I tell you it is a priceless remedy Yours very respectfully, D A McCLURE, Attorney at Law

Wilkesbarre, Pa, Sept 28, 1850

Dr. J C Ayer—My dear Sir —Your medicine is much approved by those who have used it here, and its composition is such as to insure and maintain its reputation I invariably recommend it for pulmonary affections, as do many of our principal physicians I am your friend, CHAS STREATER, M D.

RHODES' FEVER AND AGUE CURE,

OR, NATURE'S INFALLIBLE SPECIFIC.

FOR the Prevention and Cure of Intermittent and Remittent Fevers, Fever and Ague, Chills and Fever, Dumb Ague, General Debility Night Sweats, and all other forms of disease which have a common origin in Malaria or Miasma This subtle atmospheric poison which at certain seasons is unavoidably inhaled at every breath, is the same in character wherever it exists,—North, South, East or West—and will everywhere yield to this newly discovered antidote, which is claimed to be the GREATEST DISCOVERY IN MEDICINE EVER MADE

This specific is so harmless that it may be taken by persons of every age, sex or condition, and it will not substitute for one disease others still worse, as is too often the result in the treatment by Quinine Mercury, Arsenic and other poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation

The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA

It will entirely protect any resident or traveler even in the most sickly or swampy localities from any Ague or Bilious disease whatever, or any injury from constantly inhaling Malaria or Miasma

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have another chill, by continuing its use according to directions

It will immediately relieve all distressing results of Bilious or Ague diseases, such as general debility night sweats, &c The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected

Finally, its use will banish Fever and Ague from families and all classes Farmers and all laboring men by adopting it as a preventative will be free from Ague or Bilious attacks in that season of the year which while it is the most sickly, is the most valuable one to them.

One or two bottles will answer for ordinary cases, some may require more

Directions printed in German, French and Spanish, accompany each bottle

PIANO FORTE WARE-ROOM!

Where he will keep on hand a good assortment of the celebrated

AMERICAN ACTION PIANO FORTES,

Manufactured by George Hews, of Boston, Mass.

The Patent American Action Piano Forte is distinguished for its great fullness, richness and sweetness of tone, evenness of scale, and delicacy of touch. The improvement in the Action renders it less liable to derangement, and a so greatly facilitates execution. Numerous medal diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession, residents at Boston and elsewhere, among which are the following:

From the illustrious Pianist L. M. Gottschalk, to M. Hews, Agent at New York.

New York, Dec 5 1853.

Mr. N. J. CURTISS —

Dear Sir Having had the pleasure of performing upon two Hews American Action Pianos at the World's Fair in this city the present year, and other of his Pianos at your Wareroom which afforded me much gratification, I cheerfully recommend them to the public. I am very glad of the improvement in the action. These instruments likewise are of excellent tone, owing, no doubt, to the perfection of the scales.

Very Respectfully, L. M. GOTTSCHALK

From the distinguished Pianist, William Mason.

Mr. HEWS —Having repeatedly played upon the Pianos manufactured by you, with the American Action, I am free to acknowledge, that for certainty and elasticity of action, power, purity and equality of tone, I have never seen them surpassed in the square Piano Forte.

WILLIAM MASON

Purchasers and lovers of music in general, are respectfully invited to call and examine these instruments. The Pianos will be sold at Boston prices, and warranted to give satisfaction in every respect.

Pianos to Let. Old Pianos taken in exchange, and a liberal price allowed.

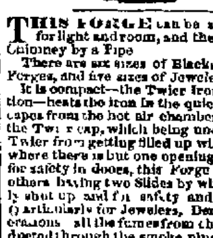
QUEEN'S PATENT PORTABLE FORGE AND BELLOWS!



THIS FORGE can be set where most convenient for light and room, and the smoke conducted to the Chimney by a Pipe.

There are six sizes of Blacksmiths, Coppersmiths, &c. Forges, and five sizes of Jewelers, Dentists and Chemists.

It is compact—the Twier Iron is of a superior construction—heats the iron in the quickest manner—the wind escapes from the hot air chamber through several holes in the Twier cap, which being under the fire, prevents the Twier from getting filled up with coal and ashes, as it will where there is but one opening. For out door work and for safety in doors, this Forge has great advantages over others having two Slides by which the forge can be closed up and shut up and for safety and many purposes in doors, particularly for Jewelers, Dentists and for chemical operations, all the fumes from charcoal and acids being conducted through the smoke pipe, or when open they are entirely out of the way. It is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed.

It is the best Forge for Contractors on Railroads, Public Works, (for making repairs on the same) and for emigration to new countries, ever offered to the public, and are successfully used by most of the steamers, and also by the U S Army and Navy. For sale by

PATENT MEDICINES.

AYER'S

CHERRY PECTORAL,

for the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

AMONG the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyments, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following, and refer further enquiry to my American Almanac, which the Agent below named, will always be pleased to furnish free, wherein are all particulars, and indisputable proof of these statements.

Office of Transportation, Laurens R R, S C, Aug 4, 1853

DR J C AYER. Dear Sir,—My little son, four years old, has just recovered from a severe attack of malignant Scarlet Fever, his throat was rotten, and every person that visited him pronounced him a dead child. Having used your CHERRY PECTORAL, in California, in the winter of 1850, for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy. I gave him a teaspoonful every three hours, commencing in the morning, and by 10 o'clock at night, I found a decided change for the better, and after three days use, he was able to eat or drink without pain.

Its use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent. For all affections of the Throat and Lungs I believe it is the best medicine extant. A feeling of the deepest gratitude prompts me in addressing you these lines —but for your important discovery, my little boy would now have been in another world.

I am yours, with great respect

J D POWELL, Supt Trans., L R R

Rocky Hill, Somerset Co., N J, July 21, 1852

DR J C AYER —Since your medicine has become known here it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the best they can say of it is not too much for the good it has done. I take pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel gratified in seeing the benefit it confers.

Please send me a further supply, and believe me

Yours with respect, JOHN C WHITLOCK.

P S —Almost any number of certificates can be sent you if you wish it.

Windsor, C W, June 26, 1855

DR J C AYER—Sir —This may certify that I have used your CHERRY PECTORAL for upwards of one year, and it is my sincere belief that I should have been in my grave ere this time if I had not. It has cured me of a dangerous affection of the lungs, and I do not overstate my convictions when I tell you it is a priceless remedy.

Yours very respectfully,

D A McCLURE, Attorney at Law

Wilkesbarre, Pa, Sept 28, 1850

DR J C AYER—My dear Sir —Your medicine is much approved by those who have used it here, and its composition is such as to insure and maintain its reputation. I invariably recommend it for pulmonary affections, as do many of our principal physicians. I am your friend,

PATENT MEDICINES.

THE AMERICAN'S FRIEND

HOLLOWAY'S PILLS.

To the Citizens of the United States —

I most humbly and sincerely thank you for the immense patronage which you have bestowed upon my Pills. I take this opportunity of stating that my Ancestors were all American Citizens, and that I entertain for all that concerns America and the Americans, the most lively sympathies, so much so that I originally compounded these Pills expressly to suit your climate, habits, constitutions, and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York. THOMAS HOLLOWAY,

38, Corner of Ann and Nassau Streets, New York

THE BLOOD, LIVER AND BILIOUS COMPLAINTS

The Citizens of the Union suffer much from disorders of the Liver and Stomach. The fair sex, perhaps the most handsome in the World, at a certain period lose their teeth and good looks while yet in the hey day of life. These evils may be effectually remedied by continually keeping the blood pure and the Liver and Stomach in a healthy action when life will flow smoothly. Lasy fearlessly, that health and life may be prolonged for years beyond the ordinary limits, if Holloway's Pills are taken to purify the blood, in accordance with the directions which accompany each Box.

CURE OF WEAKNESS & DEBILITY OF TEN YEARS STANDING

Captain John Johnson, of Astor House, New York suffered for ten years from a derangement of the Liver and Stomach, and was so reduced in strength that he never expected to go to sea any more, having tried every known remedy without deriving benefit. At last he had recourse to Holloway's Pills, which completely cured him, after using them for three months, and he now enjoys the soundest health.

These celebrated Pills are wonderfully efficacious in the following complaints —

Ague	Dropsy	Liver Complaints	Secondary Symptoms
Asthma	Dysentery	Lumbago	Tic Douloureux
Bilious Complaints	Erysipelas	Piles	Tumours
Blotches on the Skin	Female Irregularities	Rheumatism	Ulcers
Bowel Complaints	Fevers of all kinds	Retention of Urine	Venereal Affections
Colics	Fits	Scrofula, or King's Evil	Worms of all kinds
Constipation of the Bowels	Head-ache	Sore Throats	Weakness from what ever cause &c.
Consumption	Indigestion	Stone and Gravel	
Debility	Inflammation		
	Jaundice		

Sold at the Establishment of Professor Holloway, 38, Corner of Ann and Nassau Streets, New York, also by all respectable Druggists and Dealers in Medicines throughout the United States, in Boxes, at 37½ cents, 87 cents, and $1,50 cents each. To be had Wholesale of the principal Drug Houses in the Union.

There is a considerable saving by taking the larger sizes.

RHODES' FEVER AND AGUE CURE,

OR,

NATURE'S INFALLIBLE SPECIFIC.

FOR the Prevention and Cure of Intermittent and Remittent Fevers, Fever and Ague, Chills and Fever, Dumb Ague, General Debility, Night Sweats, and all other forms of disease which have a common origin in Malaria or Miasma. This subtle atmospheric poison which at certain seasons is unavoidably inhaled at every breath, is the same in character wherever it exists,—North, South, East or West—and will everywhere yield to this newly discovered antidote, which is claimed to be the GREATEST DISCOVERY IN MEDICINE EVER MADE.

This specific is so harmless that it may be taken by persons of every age, sex or condition, and it will not substitute for one disease others still worse, as is too often the result in the treatment by Quinine, Mercury, Arsenic and other poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation.

The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.

It will entirely protect any resident or traveler even in the most sickly or swampy localities, from any Ague or Bilious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have another CHILL, by continuing its use according to directions.

It will immediately relieve all distressing results of Bilious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families and all classes. Farmers and all laboring men by adopting it as a preventative will be free from Ague or Bilious attacks in that season of the year which, while it is the most sickly, is the most valuable one to them.

One or two bottles will answer for ordinary cases, some may require more.

Directions printed in German, French and Spanish, accompany each bottle.

Price One Dollar. Liberal discounts made to the trade. Trade circulars forwarded on application, and the article will be consigned on liberal terms to responsible parties in every section of the country.
